PROPOSIT. IV.

*The power of the Keyes* take it in the compleat nature thereof, its in the Church of beleevers, as in the first subject, *but every part of it is not in the same manner and order to be attended for its ruling in the Church: but in the order and manner which Christ hath appointed.*

Its *in her radically and originally*, as the cause subordinately under Christ; and it may there be acted by her *immediately*, as *potestas judicii* in admission of members in the absence of Ministers, in censuring by admonition, for each man is *a judge of his brother*; and there is a judiciall way of admonition, when the parties are in such an estate, that *in foro externo* they can make

# What if …

- You are studying word usage by the author and therefore want to exclude from analysis any text where the author quoted from another source?
- You are transcribing a manuscript involving various *hands* and want to identify what was written by whom
- You are transcribing a document and have identified a typo that might confuse a non-expert or impede their search, so you want to supply a correction without replacing the original error
